Executive Summary

The first self-help tutorial is available from ECLAIRE web pages. The documentation will be revised and enhanced during the project's life time as work progresses and needs become clearer.

Objectives:

To provide simple self-help tutorial material for using the ECLAIRE CEH database. This database will contain all measurements from field and laboratory experiments, as well as metadata for mined information, and results of plot-scale modelling. The first guide is to take the user step by step through the down-loading procedure.

The second guide will provide similar simple instruction for uploading data.

More advanced tutorials will be made available as the project progresses

1. Activities:

Production of self-help tutorial for using the database software

2. Results:

n/a

3. Milestones achieved:

MS106 Database software ready to accept data

4. Deviations and reasons:

Delivery of an online tutorial was 1 month late, but until now there is no downloading activity. Advice and Phone tutorials have been provided to users interested in knowing how the software operates.

5. Publications:

6. Meetings:

Training has been discussed at several sub-group meetings in Edinburgh, and were discussed and reviewed at the full Data Management Meeting in April 2012, Edinburgh
